## NATIONAL ARCHIVES MICROFILM PUBLICATIONS

### INTRODUCTION

On the 74 rolls of this microfilm publication are reproduced the compiled records that give histories of Confederate military units. The compiled records consist of jacket-envelopes bearing the names of the units and titled "Captions and Record of Events." These jacket-envelopes typically contain (1) caption cards, showing the exact captions of the master rolls as copied and the certificate of the mustering officer verifying the accuracy of the rolls; and (2) record-of-events cards containing information relating to the stations, movements or activities of each unit or a part of it, and sometimes to its organization or composition, strength and losses, and disbandment. The amount of information contained on a card varies. Some include only date and name of station of the unit. Others give detailed accounts of the unit's operations and activities. These compiled records are part of the War Department Collection of Confederate Records, Record Group 109.

Because some records of the Confederate Army were lost or destroyed during the war and at its close, the compiled military histories of most units are incomplete. There are no record-of-events cards for a small number of State units that were mustered into Confederate service and for militia units that were mustered into military service.

The compilation of records showing service of Confederate military units was undertaken simultaneously with compilation of service records of Confederate soldiers. The work was begun in 1865 under the direction of Major Gen. John C. Alcorn, head of the Adjutant General's Office in the War Department. Abstracts were prepared from documents in the War Department's collection of Confederate records, and from documents forwarded daily from Southern States to the War Department in an effort to obtain as complete a list of units as possible. The original master rolls and other records were the principal sources of information furnished by the Adjutant General's Office to the War Department, but records, reports, hospital records, casualty lists, organization changes, and other files, when obtainable, were also used. Records of units and reports of events were also obtained from the Adjutant General's Office by separate compilation, and every effort was made to insure their accuracy.

One of the jacket-envelopes, particularly the one titled "Captions," "Rolls," "Organization," or "Disbandment," is not event-of-stations type, but it contains information cards that give a general reference to records filed with other units. On the front of each jacket-envelope is a series of numbers that correspond to the number on the back of each card in the jacket. The reverse side, which contains a number and a date stamp, was

not filmed unless it contained additional information. The numbers and dates were stamped on the cards for control purposes at the time the compiled records were prepared. Later, notations were made on some jackets to indicate that clothing rolls of the units were extant. Card abstracts were prepared from information on these rolls and filed with compiled records of individual soldiers but not in the jacket-envelopes reproduced on this microfilm publication.

Preceding the jacket-envelopes of most units are empty envelopes on which are listed the names of officers of the unit or, occasionally, only the name of the commanding officer. The letter "C" and the numbers "1" and "2," which follow names of officers, indicate the grades of captain, first lieutenant, and second lieutenant, respectively. The lists often include dates on which units were called into service and mustered out; dates of deaths, promotions, resignations, or retirements of officers; and information relating to consolidations, transfers, disbandments, or other changes in the organization of units. A stamp reading "All rolls filed herewith" appears on some of the lists, but no rolls are now filed with the lists. Similarly, the notation "For references see inside," which appears on some lists, should be disregarded as there are now no reference sheets in the envelopes.

Lists of officers were prepared for many State militia units that were not mustered into service and for other organizations for which no rolls were found. These lists are filed under "Miscellaneous" and appear at the end of records of State units and at the end of records of units raised directly by the Confederacy. With a few exceptions no lists were prepared for units from North Carolina.

Most of the compiled records reproduced in this microfilm publication are arranged alphabetically by State, thereafter by type of unit (cavalry, artillery, and infantry), followed by reserve, militia, local defense, conscript, prison guard, instruction, or other organizations. The table of contents was prepared from caption cards; the information in parentheses or brackets consists of other names by which units were known and related information. The arrangement of compiled records for units raised directly or otherwise formed by the Confederate government is similar except that the latter units are not broken down by State.

The National Archives has compiled records of Confederate soldiers who served in units whose histories are reproduced in this microfilm publication. There are also card indexes to help locate the compiled service records of Confederate soldiers. All the records and the related indexes have been microfilmed.

The archivist responsible for the preparation of this microfilm publication is Geraldine N. Phillips.

*Jan 2. Lost fourteen men on East  
bank of Apalachicola river, sixty five  
miles from Camp Jackson, Johnston.  
Captured two of the enemy's boats, kill-  
ing two men and taking twelve  
prisoners, two of whom were wounded.  
None of my men hurt.  
Jan 3. Enemy approached St Mark  
light house with two steamers and  
opened fire on division of my men  
who were on picket duty at the light  
house. My pickets all escaped un-  
wounded. After killing the marks for  
near two hours the enemy landed and  
burnt all the four houses on the river  
also the light house at the light. The  
tower was not injured. They then returned  
to camp. Moved from Camp Jackson  
to Johnston, and camped on the  
bank of the Apalachicola River  
near Newport, distant from Camp  
Jackson, Johnston, four miles, and*

We certify on this that we actually  
mustered and kept in service the  
men for which we have received  
payment for the whole of the time  
served. We also certify that the  
non-commissioned officers and  
privates of the company to which we  
mustered who are made up for pay  
to as having done so, earned  
as they did, and had them in  
service for the same period of time, al-

The main range of the mountains of the  
great divide, which runs north and south of  
the place, was found to be composed of  
limestone and sandstone. The limestone  
was found in the form of large blocks  
and was of a light color. The sandstone  
was of a darker color and was found in  
the form of small pebbles and sand.  
The fossils found in the limestone were  
of the same kind as those found in the  
sandstone. The fossils were of the same

RECORD OF EVENTS.

The company left Pensacola, March 28, and arrived at Corinth March 29, 1862. They engaged in the battle of Shiloh on the 7th of April and suffered in the night at Murfreesboro. The 1st of May they were ordered to Corinth and reached that place May 10. They were in line during a week of fighting and had about thirty men in a little more than twenty-four hours. They were then ordered to Tennessee until ordered to Chattanooga on the 2nd of June, 62. It then marched through a mass of the Tennessee River and took part in the action at that place on the 24th of July, 62. Then it returned through Cumberland Gap to Knoxville.

## RECORD OF EVENTS.

A black and white photograph of a textured surface, possibly a book cover or endpaper. The surface is covered in a dense, grid-like pattern of small, dark, rectangular marks, which appear to be the result of a printing or weaving process. A small, dark, irregular object, possibly a piece of debris or a small hole, is visible near the center-right of the image. The overall appearance is that of a close-up of a printed or woven material.

RECORD OF FINES.

1. The first part of the paper is devoted to a general discussion of the problem of the existence of a solution of the system of equations (1) for arbitrary values of the parameters  $\alpha$  and  $\beta$ . It is shown that the system has a solution for arbitrary values of the parameters  $\alpha$  and  $\beta$  if and only if the condition  $\alpha + \beta = 1$  is satisfied.
